

SELCERT: Skills Development and Certification for Trainers of Synchronous Electronic Learning

Date: 25/11/2024

Title: International Online Multiplier Event Highlights the SELCERT Project's Achievements

The SELCERT project, co-funded by the European Union, successfully held its International Multiplier Event on November 25, 2024. This event showcased innovative tools and methodologies developed to enhance the skills and certification of trainers in synchronous electronic learning by the project consortium.

Key highlights of the event included:

- **Presentation of the Vocational Course for SEL Trainers:** Equipping trainers with the necessary skills to deliver high-quality online learning.
- **Digital Resource Centre:** A platform providing tools and resources for trainers to enhance their online teaching capabilities.
- **Interactive Toolkit:** Tools for making online training more engaging across various platforms.
- **Guide of Best Practices:** Practical recommendations for implementing effective synchronous electronic learning.
- **Pilot Testing Results:** Insights from testing the developed tools in real-world training scenarios.
- **Project Website:** A central hub for accessing the project's materials, updates and dissemination materials.

The event underscored SELCERT's commitment to integrating adult education principles, digital gaming elements, and ISO17024 qualification standards into the field of online training.
